- Express.js
- MySQL
- MongoDB
- Git

INTERESTS

Games, Gym, Reading

PROFILE

I'm Nay Zaw Khant, a web developer with expertise in HTML, CSS, JavaScript, jQuery, React.js, Bootstrap CSS, Tailwind CSS, Redux, Nodejs, Next.js, Express.js, MongoDB, MySQL, and Git. I have experience building ecommerce and blog websites, as well as custom web applications. I'm a quick learner who keeps up-to-date with the latest technologies and trends in web development. Thank you for considering my application.

PROJECTS

Rumor News

React.js | Pure CSS | Node.js | Next.js | Express.js | MongoDB

This is a news website that has been developed using a custom-built tech stack. The website comprises three main components, each serving a distinct function:

- The Admin Component has been built using the React.js library and is responsible for managing the website's content and users.
- The Website Component, built with Next.js, handles the rendering of the website's front-end, providing users with an optimized and seamless browsing experience.
- The REST API Component is built on Node.js and is responsible for managing the website's data and communicating with other web services.
- By leveraging the power of these three technologies, the website is able to deliver a robust and reliable news platform that is optimized for speed, security, and user engagement.

EXPERIENCE

Junior Web Developer
Coding Elephant Technology
June, 2022 -Present

-At first, I was working as an Intern but now I am working as a Full Time employee.
-At this job, I helped my Senior Developers with building HTML, CSS design codes.
-For small internal projects, I had to build a full-stack with React.js, Node.js and MongoDB.
 -I helped in building an ecommerce website for Hearty Heart Cosmetics Myanmar.
-I mainly work with HTML, CSS, Bootstrap, JavaScript, jQuery, React.js, Redux, Next.js, Express.js and MongoDB in this job.
